TO ALL VALUED CUSTOMERS

Aero Delivery Ltd. makes every effort to provide the best service possible with the resources we have. However, there are some conditions that are beyond our control. With the cold weather and winter fast approaching we are starting to prepare for these conditions. We have taken all the steps necessary to minimize the risk of exposure to the cold but cannot always ensure proper coverage due to mechanical limitations and certain extreme temperatures.

Aero Delivery Ltd. will respectfully ask all shippers to ship their entire product at "Shippers Risk" when the outside temperature falls below -30 degrees C with a wind chill. In situations with extreme temperatures, we feel we need to share the risk associated with moving temperature sensitive freight.

Thank you for your cooperation on this matter.

Regards,

**Trevor Fast
